RENOVATION

Paintable wall coverings to renovate walls and ceiling

Your partner for innovative textiles

Cracks

- Cracks appear with time and climatic conditions. They can be created by water infiltration, ground or wall displacements.

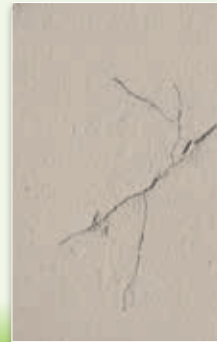

We define

Small cracks (< 0,2 mm)

Medium cracks (1 to 2 mm)

Large cracks (> 2 mm)

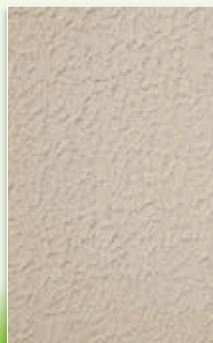

Irregular surfaces

- Bad ageing of a decorative render or an old wallcovering exposed to high traffic can generate an irregular surface. Substrate must be clean off any damaged parts prior to renovation job.

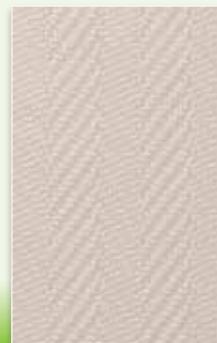

We define

Slightly patterned surface

Highly patterned surface

Wall covering
