

G3 Flexicut

Abrasive Compound

Product Description

G3 Flexicut Abrasive Compound is a paste cutting compound which removes P1500 or finer sanding marks from Medium Solids paint systems.

This versatile product can be used by hand or machine. However, it has been created in tandem with a G Mop 8" Wool Compounding Pad (**GMW801** - single sided or **GMW806** - double sided) which allows greater ease of use, getting into all the dips and corners of the bodywork.
