

TITLE

SGG PARSOL GREEN®

SUBTITLE

Body- tinted glass

DESCRIPTION

SGG PARSOL green is a green tinted glass, manufactured in the same way as SGG PLANILUX clear float glass. SGG PARSOL has green coloured appearance, as well as basic solar control properties.

RANGE

Thickness:1.8mm-12mm

PRODUCT APPLICATION

SGG PARSOL green can undergo the same processes as SGG PLANILUX and is the base glass for many other processed products: coated glass, laminated glass, toughened, screen- printed, decorated, acid- etched, sandblasted, lacquered, edgeworked and silvered glass, as well as double- glazed units etc.

ADVANTAGE

SGG PARSOL green, like SGG PLANILUX, is intended for universal applications where an attractive appearance or basic solar control properties are required.
