

TITLE

SGG PARSOL®

SUBTITLE

Body- tinted glass

DESCRIPTION

SGG PARSOL is a body- tinted glass, manufactured in the same way as SGG PLANILUX clear float glass. SGG PARSOL has a coloured appearance, as well as basic solar control properties.

RANGE

Thickness: 1.8mm--12mm

PRODUCT APPLICATION

SGG PARSOL is intended for universal applications where an attractive appearance or basic solar control properties are required:

Interior applications for decoration, fittings and furniture.

External applications in single or double- glazing, for facades and overhead glazing.

Auto applications.

ADVANTAGE

Basic solar control

High quality
